#innovation #internationalization #multiculturalism #international impact #sustainability #civic
engagement #erasmus+

Purpose of the event:

WSEI University's first Erasmus Week is a cornerstone of our 25th-anniversary celebrations, underscoring our commitment to impactful international collaboration. This week-long event is strategically designed to deepen relationships with our valued partners across higher education, public institutions, NGOs, and the business sector.

A primary objective is to showcase the demonstrable impact of joint Erasmus+ projects, emphasizing their contributions to fostering civic engagement, promoting sustainable solutions and addressing critical social needs. We will highlight best practices and lessons learned, creating a space for rich intercultural dialogue.

Erasmus Week is also an invitation to the academic community and the citizens of Lublin to actively participate in WSEI University's international initiatives. We are dedicated to ensuring the sustainability of our partnerships and maximizing their positive impact on society, with civic engagement as a guiding principle in all our endeavors. Join us as we explore how international cooperation can drive meaningful change and build a more sustainable and engaged future for all.

Adding further significance to this Erasmus Week, the event will be held during a landmark year for Lublin, as it proudly holds the title of European Youth Capital 2025. Furthermore, the week coincides with Poland's Presidency of the Council of the European Union, offering a unique opportunity to highlight the contributions of young people and the importance of international collaboration in shaping the future of European education and innovation.

This context will enrich discussions and provide a platform to connect our Erasmus+ initiatives with broader EU priorities related to youth empowerment and sustainable development."
