ABOUT WSEI UNIVERSITY

FOR OVER *25 years* WE HAVE BEEN CARRYING OUT
OUR RESPONSIBILITIES WITH GREAT PRIDE

BEGINNINGS

WSEI University was established under the permission of the Ministry of National Education dated October 24, 2000 and entered in the register of the Ministry of Science and Higher Education of non-public universities and the association of non-public universities under the number 196. The founder of the University is the Polish Foundation of Centers for Support of Economic Development "OIC Poland", which is the private non-governmental organization, based in Lublin. The Foundation was established in 1991 as the initiative of members of the local society, who were interested in stimulating socio-economic development of Lublin Region.

ACHIEVEMENTS

We strongly believe that educational activity of our University will bring an immense impact on the development of career opportunities for our students for the benefit of Lublin Region. We are very proud of the position that WSEI University has achieved over the past years. We cannot think about those achievements without mentioning the people who contributed to creating its structures from the beginning and are still committed to it nowadays.

WSEI University is the only non-public university in Poland, which has successfully passed the EUA-IEP evaluation process and is among the six Polish universities that have so far undergone this international evaluation procedure.

OUR MISSION

WSEI's mission is to prepare highly qualified specialists who will be able to meet European standards, and then strengthen the human resources capacity and increase the potential of local government institutions in public financial management, strategic planning or absorption and management of EU funds. In the context of economic development of the region those mentioned areas of activities are the key challenges that the public and private sector is to face in the next few years.

EDUCATION

We owe our success mainly to a high level of education, which combines academic knowledge with a close relationship and practice of socio-economic life, which is very rare among universities. The high level of educational process is maintained by a diligently selected didactic staff with proper academic degrees and necessary academic experience. A great part of the staff has also significant practical experience derived from their non-academic activity. Such an excellent team is a guarantee of a high level of education relating to economic realities of our region, meeting the EU requirements.

WSEI UNIVERSITY IN NUMBERS

25 YEARS OF EXPERIENCE

AND A STRONG POSITION ON THE ACADEMIC MAP OF POLAND

58 000 GRADUATES

99 COUNTRIES

OF ORIGIN OF OUR STUDENTS AND STUDY CANDIDATES

- **The modular system of teaching** allows you to gain a profession while you are still a student, acquire various competencies in different fields and get in touch with employers during the first year of your studies.

- **Practical profile of studies.** Classes are also implemented in the form of workshops and laboratories, and are taught by practitioners. You gain specific, useful skills.

- **6th place in the country among non-public higher education institutions according to the ranking supervised by the Minister of Education and Science** in two categories - according to the number of candidates applying for full-time and part-time first degree studies and full-time master's studies.

E-University

TEACHING FACILITIES

WSEI UNIVERSITY STUDENT'S HOUSE

- 6 spacious lecture auditoriums,
- 5 lecture halls,
- 40 practice and seminar rooms,
- 9 modern computer labs (equipped with computers with AMD Rayzen 7 processors and graphics cards GeForce RTX 3060 12GB graphics cards with the new RAM standard. They are accompanied by 27-inch monitors, with IPS matrices),
- 10 classrooms for synchronous classes (direct online classes),
- facilities adapted to the needs of disabled,
- wireless internet access,
- gym (training with a personal trainer) and gymnastic facility,
- Xerox point,
- monitoring.
- 140 rooms with accommodation for 228 students – offering single, double, and triple rooms, as well as King Size single rooms
- All rooms are fully furnished and have Internet access. Most are equipped with a refrigerator and TV.
- The building features a laundry room and a common study/lounge area.
- A fully equipped shared kitchen is available, including tableware, a microwave, and an electric kettle.
- Additionally, interested students can purchase a parking subscription.

CONVENIENT LOCATION

in the immediate proximity of the University is located MPK bus stop and city bike station.

SCIENTIFIC INFORMATION CENTER

computerized library with reading room (61 000 copies of books).

DIDACTIC BASE

- Academic Center For Public Safety,
- Academic Center of Psychoprophylaxis and Therapy,
- Institute of Nursing and upgraded nursing and psychology labs,
- Cyber Security Laboratory
- Laboratory of Experimental Psychology,
- Public Health Laboratory,
- Monoprofile Medical Simulation Center,
- Virtual laboratories for the field of MECHATRONICS.

FACILITIES ADAPTED

to the needs of people with disabilities.

ELECTRONIC GATEHOUSE

is an electronic list of lecturers available for people staying in the WSEI building, thanks to which you can easily and quickly find a lecturer.

Erasmus +

INTERNATIONAL EXCHANGE

ERASMUS+ is a program for higher education institutions, students, doctoral candidates, and staff. Its goal is to support international cooperation between universities, enable students to study and/or undertake professional internships/traineeships abroad, promote the mobility of university staff, and create numerous opportunities for universities to participate in projects with international partners.

University offers the ERASMUS + scholarships for students, who finished min. 1 year of study programme and for graduates who are interested to experience the mobility exchange in any other country of the European Union. Students can apply for:

- **STUDIES** – a semester or a year at a university;
- **INTERNSHIPS** – from min 2 months up to 12 months during the study programme.

Erasmus+

BENEFITS OF THE STUDENTS' EXCHANGES:

- Learning or improving foreign language.
- Getting to know other cultures and countries.
- Building business contacts and networks.
- Increasing employment opportunities in the home country or abroad.
- Development of skills such as: adaptation to new conditions, problem solving, creativity.
- Experiencing a different style of teaching or work.
- The opportunity to meet new people and explore new places.

Thanks to the Erasmus+ programme, you will not only gain knowledge and skills, but also develop as a global citizen and be ready to meet the challenges of the modern global job market!

COMPUTER SCIENCE

*Become a student
of WSEI University*

*Study Computer Science at the WSEI University
Branch in Warsaw!*

INNOVATIVE EDUCATION AND MODERN OFFER

WHY IS IT WORTH CHOOSING THIS COURSE OF STUDY?

- » Bachelor and Master's degree in Computer Science is recognized in all EU countries.
- » Professional equipment and software is used for conducting classes, including: specialized training tool of CyberRange class, so-called training ground developed by experts advising EU and NATO security structures, modern fully-equipped laboratory with the possibility of physical division into two zones: Blue Team, Red Team, and Forensic Team.
- » Students during their studies undertake internships - 6 months.
- » Classes are conducted by practitioners with many years of experience.
- » Classes are conducted at the Cybersecurity Laboratory, Network Security Laboratory, Audio-Video Recordings and Multimedia Applications Laboratory, IP Network Services Laboratory, Audiovisual Systems and Multimedia Technologies Laboratory.
- » Practical classes, conferences, meetings and trips devoted to improving students' competences are carried out in cooperation with the National Cyberspace Security Center (unit of the Ministry of National Defense).

SPECIALIZATIONS

ENGINEERING STUDIES (7 semesters)

- » SOFTWARE ENGINEERING AND MOBILE TECHNOLOGY
- » CYBERSECURITY AND NETWORK TECHNOLOGIES
- » IMPLEMENTATION OF IT SYSTEMS

MASTER'S STUDIES (4 semesters)

- » CYBERSECURITY AND INFORMATION SYSTEMS ADMINISTRATION **/N/**
- » DIGITAL TECHNOLOGIES IN BUSINESS
- » PROGRAMMING AND DATA ANALYSIS

CYBERSECURITY LABORATORY

the most modern and the only laboratory of this type in Eastern Poland. As part of the Laboratory, training and technical projects are carried out.

ACQUIRED QUALIFICATIONS AND SKILLS

Upon graduation, you will:

- » Have knowledge and skills in the field of software engineering, selection of programming environments and tools for designing, implementing and testing IT systems, including web applications.
- » Be able to design, implement and manage modern multimedia applications, including those operating in various areas of ICT service delivery.
- » Be able to design, implement and maintain computer networks and computer/IT systems with a focus on security.
- » Be able to analyze the functioning of computer and network systems and diagnoses these systems using available software and hardware tools.
- » Be able to analyze cyber threats, detection methods and prevented cyber attacks.
- » Be prepared to obtain industry certificates.

Work & Career

- » Administrator of database systems
- » Data analyst
- » Head of the IT department in government offices and institutions
- » Mobile application developer
- » Software designer
- » Security systems designer
- » Designer of computer systems
- » IT specialist
- » Specialist in the field of computer systems and network security
- » IT systems tester
- » IT systems implementer
- » Web developer.

study

NURSING

*Study Nursing at the WSEI University
Branch in Warsaw!*

INNOVATIVE EDUCATION AND MODERN OFFER

**WHY IS IT WORTH CHOOSING
THIS COURSE OF STUDY?**

- » The Bachelor degree in Nursing is recognized in all EU countries.
- » Practical study programme.
- » Students in the course of studies undergo professional practice - 1200h.
- » Classes conducted by practitioners.
- » During the bachelor's degree program, the student writes a diploma thesis and defends it during the diploma exam, which also includes a practical part (according to the educational standard).

FIELD OF STUDY

BACHELOR'S DEGREE (6 semesters)

BRANCH OFFICE OF THE WSEI UNIVERSITY

The WSEI University has a didactic base and infrastructure in Warsaw that ensures the full realization of the learning outcomes planned in the curriculum for the course of study in the field of NURSING, which includes lecture halls, teaching rooms, IT labs, language labs, and especially the nursing skills lab. Practical classes and internships will take place in healthcare providers, such as hospitals, health centers, health care facilities.

Classes in the CENTRE OF MEDICAL SIMULATION

The main goal is to improve the quality of nursing education through classes in conditions simulating real tasks in the work of nurses in a hospital. Human-like phantoms are programmed to present specific disease symptoms to which the student must apply the medical techniques or procedures learned during their studies. The Centre of Medical Simulation extends the possibility of practical education with effects related to patient care, especially in the face of complex medical problems.

ACQUIRED QUALIFICATIONS AND SKILLS

Upon graduation, you will:

- » Provide services in accordance with current medical knowledge for health promotion, health maintenance and disease prevention.
- » Provide nursing care to the sick, disabled and dying person.
- » Work in accordance with professional ethics, respecting and upholding patients' rights.
- » Communicate in the workplace, organize your own work, collaborate in health care teams, and initiate and support community health activities.
- » Prescribe medications and specific medical devices in accordance with applicable laws and regulations and professionally approach pharmaceutical industry marketing strategies.
- » Conduct scientific research work in Nursing.
- » Lead and manage teams of nurses and midwives.

Work & Career

- » Units of the medical rescue system
- » Palliative and hospice care centers
- » Medical entities
- » Sanatoriums
- » Hospitals
- » Universities, research and development centers
- » Care and treatment institutions
- » Nursing and care institutions
- » Primary health care facilities.

GENERAL CONDITIONS OF STUDYING

ORGANIZATION OF THE ACADEMIC YEAR

The academic year begins on 1st of October and ends on 30th of September. It is divided into two semesters: winter and spring. Both semesters end with a 2-week examination session, during which no classes are held. If there is no positive evaluation of the exam, the student has the right to retake the exam, during the 2 weeks retake session. From 30th of June to 30th of September, students have the holiday break.

IN THE ACADEMIC YEAR, THERE ARE TWO HOLIDAY BREAKS:

- in the Winter Semester – CHRISTMAS HOLIDAY (end of December)
- in the Spring Semester – EASTER HOLIDAY (spring – movable feast)

Types of studies

5-year MASTER'S STUDIES

- The program lasts for 10 semesters
- Studies end with the preparation and defense of a Master's thesis
- Achieved academic title: Master

First cycle studies (BACHELOR/ ENGINEERING)

- The program lasts 6 (bachelor's) or 7 (engineering) semesters
- Studies are full-time
- Studies end with the preparation and defense of a Bachelor or Engineer's thesis
- Achieved academic title: Bachelor or Engineer

Second cycle studies (MASTER'S)

- Designed for graduates of first cycle studies (Bachelor and Engineering)
- Studies are full-time
- Studies end with the preparation and defense of a Master's thesis
- Achieved academic title: Master

FORM OF STUDY

Form of study

PRACTICAL PROFILE OF STUDIES

The university's strength lies in its strong link between didactic activities and business practice. WSEI University constantly rebuilds its programs and forms of education to adapt to the needs of employers. Curricula are developed in collaboration with practitioners from the worlds of economics and society. These practitioners also conduct workshops for students. The university has signed numerous agreements with strategic partners, i.e., institutions and companies where students can complete internships and from which practitioners are recruited to teach classes. Strategic Partners also participate in the education of students WSEI University by organizing apprenticeships and internships for graduates. Students, three times throughout the course of education (after I, II and III year), hold a 15-week paid internship/training (for students, who are not employed) in the chosen company. Due to this, WSEI University is able to practically prepare its graduates to properly perform their work after graduation.

MODULAR ORGANIZATION OF STUDY

Instead of traditional subjects, WSEI University has introduced modules into its educational program. Modules are implemented through active forms of teaching which are important in the process of building the competencies and skills. Modular studies allow to acquire competencies in many fields and use gained knowledge. Such studies also allow to make contact with the employer, become familiar with market realities, and to shape the path of study in a flexible way. Each module consists of five components:

1. **LECTURES** – aimed at conveying and organizing of necessary theoretical knowledge.
2. **CLASSES** – aimed at learning how to use theoretical knowledge in practice.
3. **E-LEARNING** – allows students to supplement and extend part of the course, solve tasks and tests anytime and anywhere with Internet access.
4. **WORKSHOPS WITH THE PARTICIPATION OF EMPLOYERS** – allows students to become familiar with the working environment. Classes carried out both in companies and in university.
5. **OWN WORK** – aimed at acquisition and perfection of the competences through the individual and group projects.

CONDITIONS FOR SUCCESSFUL GRADUATION

- participation in classes
- positive exam outcomes
- preparation and defense of a thesis.

ADMISSION RULES

Your Admission Guide

<https://www.wsei.pl/en/for-the-candidate/admission-rules/>

On this page you'll find step-by-step application instructions to apply to WSEI University. Follow the instructions below to apply as a first-year student.

Step 1

DOCUMENTS REQUIRED FOR RECRUITMENT

- Passport data page.
- All educational documents that allow you to apply for a chosen field of study.
- Eligibility letter obtained from NAWA.
- Health/fitness certificate (for Nursing/Physiotherapy and Computer Science).
- Certificate of no criminal record/police clearance certificate (for Nursing, Psychology, Physiotherapy).
- English language certificate indicating the level B2 or diploma confirming completion of first-cycle studies, second-cycle studies, or long-cycle master's studies, with information about English as the language of instruction. List of recognized English language certificates available on the website.
- Parental consent for under 18 candidates to start studies.
- One passport size photo 35 x 45mm.

Step 2

- Go to <https://dziekanat.wsei.lublin.pl/> and at the top of the page change the language to English using the globe sign.
- Tap on 'Recruitment' tab and choose 'Registration'.
- Fill out the required fields and make yourself acquainted with the conditions to study at WSEI University.
- Pay the registration fee of 200 EURO.
- When you are done with completing all your information and submitting all required documents, complete the ENTRY TEST that is available on our website and upload the results to the required documents.
- Click on "Finalize" on the right to your chosen field of study in STEP 2.
- Go to 'Recruitment prints' and generate the application form. Send it with a proof of payment to our email: studyenglish@eiu.edu.pl.

Step 3

Wait for the Offer Letter that will be sent to you by e-mail.

Step 4

Pay the tuition fee for one academic year in advance.

Step 5

Wait for the documents necessary to apply for a visa. They will be issued once the payment is confirmed by the accounting department.

These documents include:

- The Final Acceptance Letter.
- The Recommendation Letter to the Polish Embassy.
- The Certificate of Enrollment.

When you arrive in Poland, please make sure that you have the legalized originals of the required documents, as you will need to submit them. If you have any questions regarding the admission procedure, please contact: studyenglish@eiu.edu.pl. In addition, within 30 days of admission, the student must present health insurance and accident insurance for the entire period of study in Poland, a European Health Insurance Card, or sign an insurance agreement with the National Health Fund.

Step 6

Welcome to WSEI University!

ACCOMMODATION

WSEI University student house

University WSEI invites students to stay at its renewed Student House, located directly on campus — just steps away from the main university building. Experience comfort, convenience, and student life all in one place!

140 rooms with accommodation for 228 students — offering single, double, and triple rooms, as well as King Size single rooms.

All rooms are fully furnished and have Internet access. Most are equipped with a refrigerator and TV. The building features a laundry room and a common study/lounge area.

Security cameras monitor the hallways and the outside of the building for residents' safety.

A shared kitchen is available, including tableware, a microwave, and an electric kettle on each floor.

Cooking is not allowed, but there is an on-site canteen, where students can purchase a meal plan (breakfast and dinner included).

Career Office

We help students and graduates of WSEI University in conscious management of their careers, active entry and effective functioning on the modern labour market.

The Career Office takes care of professional development of students by traditional counseling services as well as innovative online solutions.

REACTIVATE portal supports effective matching of the student's competences with the work placement, apprenticeships or job offers published by employers nationwide.

THE REACTIVATE PORTAL ENABLES:

- easy communication among students, employers representatives' and University staff,
- collecting, processing and analyzing information and documents related to students' traineeships and internships, job placements as well as vocational and educational counseling,
- analyzing the needs of employers with the scope of the human resources,
- monitoring of the graduate's career.
